DETAILED ACTION

Response to Amendment

1. Amendment filed May 20, 2004 is acknowledged.

Information Disclosure Statement

2. The information disclosure statement filed April 29, 2002 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

MPEP 609IIIA(3) states:

Where the information listed is not in the English language, but was cited in a search report or other action by a foreign patent Office in a counterpart foreign application, the requirement for a concise explanation of relevance can be satisfied by submitting an **English-language version** of the search report or action which indicates the degree of relevance found by the foreign office. This may be an explanation of which portion of the reference is particularly relevant, to which claims it applies, or merely an "X", "Y", or "A" indication on a search report. (Bold added)

The examiner has no working knowledge of French. Applicant is encouraged to submit an English translation of the French reference 2 673 355, at least the portions indicated on the French search report as being pertinent. The examiner is only able to consider the document to the extent shown in the illustration.
